

5 YEAR WARRANTY

The ESTM5600HD camera kit features the most heavy duty 5.6" monitor in the industry. Great for vehicles/equipment with small cabs that operate in a high vibration environment. Ideal for plant, quarry and mining industries. Can also be used on forklifts and loaders used indoors and outdoors. Monitor features include waterproof metal housing, LCD protective cover, heavy duty sun shield, super bright LED back-lit (anti-vibration) LCD panel, soft touch buttons with back lighting, programmable screen dimmer, adjustable rear stop line and heavy duty amps mounting bracket. Monitor has 20G vibration rating and is IP69K waterproof.

The high performance ESCC88 camera delivers a sharp wide-angle image to the driver and provides outstanding visibility. Our 11 infra-red leds are twice as powerful as most cameras on the market. This gives you great night time picture quality. The ESCC88 features a built in heater for winter use. The ESCC88 can also be cleaned with a pressure washer because of heavy duty gaskets. This camera has a 30G vibration and 100G shock rating and is IP69K rating which means it is waterproof under severe conditions.
